RHYNOGRIP HT LINE ULTRAVENT

- High flexibility** → Adaptable to curves and contoured surfaces
- High initial cutting action** → Rapid stock removal
- Uniformity of scratch pattern** → Optimum substrate preparation
- High strength resin bond** → Minimal grit shedding
- Advanced technology clog resistant coating** → Extended working performance
- Nylon grip backing system** → Quick and easy to fit

INDASA

PROFESSIONAL SANDING SYSTEMS

Founded in 1979, INDASA is now one of Europe's leading manufacturers of high performance coated abrasives.

From its headquarters in Aveiro, Portugal, the company specialises in the production of innovative sanding materials and systems that deliver market specific solutions to a wide range of manufacturing and service industries.

An ongoing program of investment has resulted in the manufacturing plant becoming one of the most modern production facilities in Europe, with increased capacity to respond to the growing demands of the global market for INDASA's RHYNO® brand of abrasive products. The consistently high standards of development, production and marketing of coated abrasives has earned the company a number of globally recognized accreditations over the years.

The INDASA Group consists of 8 wholly owned subsidiaries that are located in Spain, UK, France, Germany, Poland, Brazil, USA and Italy.

Export markets have been established in over 100 countries worldwide with a network of key distribution partners that service local market demand and promote continued business development.

AUTOMOTIVE

MARINE &
COMPOSITES

WOOD

BUILDING &
DECORATION

OTHER
INDUSTRIES

WE EXPORT 90% OF OUR PRODUCTION TO MORE THAN 100 COUNTRIES.

The exploration of the export markets was a strategic decision made in the early days of our company and that decision has been guiding our growth over the past 44 years.

INDASA has since its early stages focused its efforts on finding partners to leverage business internationally. The establishment of this international network of valuable partners allow us to be present in more than 100 countries.

INDASA CORE VALUES

MANUFACTURING

We have been at the forefront of manufacturing abrasives for over 40 years. Fundamental to our strategic goal is our desire to continuously fulfil the highest quality and performance standards.

An essential component of our work ethic is our manufacturing expertise, which is a direct result of the investment in the personal development of the INDASA employee. This collaborative synergy ensures that we manufacture and operate with customer value and market specific solutions in mind.

QUALITY AND R&D

Our commitment to deliver an inspired and valued range of products is one that can only be achieved by a company whose culture strives for excellence.

We utilise our key areas of expertise in the manufacturing process to ensure that nothing but the highest quality product leaves our production plant and represents our brand.

Through highly competent internal resources, unique partnerships with key suppliers, universities and R&D centres, we have created a business and operating model that differentiates us from other renowned global players.

Our ability to challenge traditional concepts in an ever-evolving industry positions us as a leading provider for performance products, materials and service.

CORPORATE RESPONSIBILITY

It's becoming increasingly evident that responsible business practices are imperative for a successful future.

Corporate responsibility and sustainability drives our business development and innovation - ultimately it shapes the way in which we operate.

ENVIRONMENTAL SUSTAINABILITY

Recognition of our environmental sustainability is gaining momentum throughout the business operation, from energy resource or waste generation to commercial mileage consumption.

We believe that having a positive reputation exemplifies our proposition for our customers, employees, shareholders and business partners alike.

R&

RESEARCH
& DEVELOPMENT

Research & Development plays a crucial role in the ongoing development of technically advanced, high performance abrasive materials. Only the highest quality raw materials and FEPA compliant mineral grains are used, thus providing consistency of performance and efficiency across the abrasive grit range.

INDASA utilises its key areas of expertise to offer complete systems for surface treatment, preparation and finishing, across diverse market sectors such as automotive, marine & composite, woodworking and building & decorative trades.

ULTRAVENT
ADVANCED DUST FREE SOLUTION

INDASA has developed a unique and highly advanced dust free sanding solution with the ability to transform the future of machine sanding. The extraction capacity of the new UltraVent system virtually eliminates abrasive clogging, prolongs performance and provides a clean, healthy working environment.

The superior dust free sanding process produces a highly consistent finish, maximizes operator efficiency and optimises bodyshop key performance indicators (KPI's).

INNOVATIVE CELL TECHNOLOGY
by INDASA

INDASA launched the Rhynocell abrasive system that brings a new dimension to specialised surface preparation for compound and high gloss polishing applications.

It is a system resulting from a collaboration between our R&D department and leading paint and polish companies. This pre-polishing process incorporates an innovative cell technology developed by INDASA. The uniformity and consistency of scratch delivers the optimum surface for compound/polish applications and offers a labour efficient and material savings polishing process.

You can see it in the finish.

INDASA ACADEMY

INDASA
ACADEMY

Opened in January 2016, the INDASA Academy welcomes customers from all over the world serving the broadest spectrum of industry markets.

The Academy represents not only a major investment in the facility but also the commitment and delivery of technical expertise and instruction.

The application of best working practice is a key essential in driving efficiency for the workforce and business operation. Our team of experienced technicians instruct delegates in the very latest process and application techniques utilising INDASA's innovative range of abrasive system technologies. The bespoke and tailored training programmes develop the customer's skill base and optimise efficiencies in the workplace.

AUTOMOTIVE REPAIR PROCESS GUIDE

PANEL REPAIR

1 Clean panel prior to repair.

METHOD
Remove all dust, dirt and traffic film residue from panel leaving a clean/dry repair area.

PRODUCT
Panel wipe cloth
Degreaser

2 Sand the repair area to prepare for the application of body filler.

METHOD
Machine sand the repair area to a clean, bare metal surface or prepare the OE paint finish if using multi-substrate body filler.

PRODUCT
Rhynogrip HT Line ULTRAVENT disc
Grit P80 – P180

EQUIPMENT
Orbital palm sander with 5mm orbit
Dust extraction

3 Prepare the EVERCOAT™ body filler and apply to the repair area.

METHOD
Mix the hardener with the filler to a 2% ratio (by weight) on the mixing board.

PRODUCT
EVERCOAT Rage Ultra

EQUIPMENT
Rhyno mixing board
Autofill spreader

4 Shape the filler to match the required panel contour.

METHOD
Apply Dry Guide Coat to the filler area then hand sand with dust extraction block to achieve the required shape of repair.

PRODUCT
Rhynogrip HT Line strip
Grit P80 – P180 (size to suit)
Dry Guide Coat

EQUIPMENT
Dust extraction block
Dust extraction

5 Machine sand the surrounding areas to achieve a feathered edge.

METHOD
Machine sand the repair area to remove all scratches, leaving a feather edge into the surrounding paintwork.

PRODUCT
Rhynogrip HT Line ULTRAVENT disc
Grit P180– P320 (feather edge)

EQUIPMENT
Orbital palm sander with 5mm orbit
Dust extraction

PREPARATION FOR PRIMER

1 Clean the repair and surrounding area for primer application.

METHOD
Remove all dust and dirt from panel leaving a clean/dry repair area.

PRODUCT
Panel wipe cloth
Degreaser

2 Apply 440 Express to eliminate micro-pinholes in the repair surface and to enhance primer coverage.

METHOD
Apply a small amount with a cloth to cover the repair area. Wipe off residue and leave to dry for 15 minutes prior to primer application.

PRODUCT
EVERCOAT 440 Express

3 Protection masking for the panel and repair area.

METHOD
Apply masking tape to the edge of the repair area to protect any adjacent panels.

PRODUCT
Masking tape MTE
Masking Foam
Cover Roll

4 Thoroughly clean the repair area prior to primer application.

METHOD
Remove all dust/dirt particles from repair area leaving a clean/dry panel surface for priming.

PRODUCT
Low tack cloth

5 Apply primer to the repair area.

METHOD
Refer to the paint manufacturer's technical data sheet for application process.

Please follow recommended guidelines for cure time and if IR compatible.

PRODUCT
Compliant paint refinish process

PREPARATION FOR TOPCOAT

1 Apply protection masking to surrounding area.

METHOD
Apply masking tape to the edge of the repair area to protect any adjacent panels.

PRODUCT
Masking tape MTE

2 Block sand the primed area.

METHOD
Machine sand the primed area then hand sand the repair area, leaving a smooth, primed surface finish.

PRODUCT
Rhynogrip HT Line strip
Grit P320 (size to suit)
Double sided sponges Auto (SF)
Dry Guide Coat

EQUIPMENT
Dust extraction block
Dust extraction

3 Reapply Dry Guide Coat and machine sand the primed area.

METHOD
Machine sand the primed area to a smooth finish.

PRODUCT
Rhynogrip HT Line ULTRAVENT disc
Grit P500

EQUIPMENT
Orbital palm sander with 2,5 mm orbit
Softform adaptor pad
Dust extraction

4 Prepare the surrounding blend area.

METHOD
Machine sand the area to be blended for clear coat. Hand sand any edges and awkward areas.

PRODUCT
Rhynogrip HT Line ULTRAVENT disc
Grit 1000
Nylon Web (grey) or Double sided sponges Auto (MF)

EQUIPMENT
Orbital palm sander with 2,5mm orbit
Softform adaptor pad
Dust extraction

5 Mask before paint.

METHOD
Mask and protect the car before it goes into the spray booth to apply topcoat.

PRODUCT
Trim masking tape
MTE Masking tape
Masking Foam
Cover Roll

6 Thoroughly inspect and clean the panel repair area prior to topcoat application.

METHOD
Remove all dust/dirt particles from repair area leaving a clean/dry panel surface for painting.

Before spraying degrease as per manufacturer's guidelines and tack wipe the entire area to be painted.

PRODUCT
Low tack cloth

PAINT RECTIFICATION AND POLISH

1 Remove any paint imperfections (nibs) from the paint surface.

METHOD
For small areas denib by hand. Machine sand large areas.

PRODUCT
Rhynostick MFS daisy discs
Rhynogrip Film Line disc
Grit P1500 (size to suit)

EQUIPMENT
Orbital palm sander with 2,5 mm orbit
Softform adaptor pad
Dust extraction

2 Prepare the surface area for compounding.

METHOD
Machine sand the area to remove all traces of sanding marks in the surface.

PRODUCT
Rhynocell disc. Grit MF3000 (size to suit)

EQUIPMENT
Orbital palm sander with 2,5 mm orbit
Dust extraction

3 Machine compound the repair area.

METHOD
Low speed polisher with compound to remove all traces of sanding marks and to leave gloss finish.

PRODUCT
Autogloss Compound Plus
Autogloss Mop (white)

EQUIPMENT
E-Series electric rotary polisher

4 Polish the panel to a showroom gloss finish.

METHOD
Low speed polisher with liquid polish to remove swirl marks and to produce high gloss finish.

PRODUCT
Autogloss High-Gloss Plus
Autogloss Mop (black)

EQUIPMENT
E-Series electric orbital polisher

5 Remove all residue to a flawless finish.

METHOD
Clean the surface to a high gloss finish.

PRODUCT
Microfibre cloth (blue)

INDASA provides on a daily basis:

- High performance abrasive systems and innovative refinishing solutions
- Consistency through a compliant repair process
- Commercial advantage through best working practice
- Structured programme for enhanced bodyshop profitability

INDASA ACADEMY

The INDASA ACADEMY represents the commitment and delivery of technical expertise and instruction. Training programmes are tailored to develop the customer's skill base and optimise performance efficiencies in the workplace.

Health and safety compliance is required for all processes.

indasa-abrasives.com

INDASA PROCESS TO PROFIT

DRIVING EFFICIENCY

The application of best working practices is a key essential in driving efficiency for the workforce and business operation.

We have developed a structured programme of advanced repair techniques and procedures to position the INDASA product proposition at the pinnacle of industry standards.

A PROCESS THAT DELIVERS

As organisations seek to improve profitability, current working practices come under increased scrutiny and pressure. In order to help our business operator, INDASA provides on a daily basis:

- High performance abrasive systems
 - Innovative refinish solutions
 - Training and technical expertise to maximise workforce competence
 - Business operational KPIs
 - Commercial advantage
 - Consistency through a structured repair and refinish process
 - Structured programme for bodyshop profitability
- ... We call it Process-to-Profit.

AUTOMOTIVE REPAIR **PROCESS GUIDE**

The Automotive Process Guide is fully integrated with our Process to Profit program.

How can our Guide help?

1. It is a structured and process-oriented approach, providing the latest and best working practices and repair techniques;
2. Consistency of repair through the compliant process, effective and efficient use of materials, improvement of productivity, and reduced repair costs;
3. The Process Guide is also available as a video presentation: on the YouTube channel @INDASAAbrasives-Official

With a scope to provide a clear insight to all bodyshop professionals, we have compiled video repair process guides for the 4 key stages of vehicle repair: Panel Repair, Preparation for Primer, Preparation for Topcoat, Paint Rectification and Polish.

1 / 4 Panel Repair

2 / 4 Preparation for Primer

3 / 4 Preparation for Topcoat

4 / 4 Paint Rectification and Polish

ABRASIVES

BEST CHOICE FOR SURFACE PREPARATION

PRODUCT

INDASA's flexible abrasive materials integrate a full range of product for the most demanding sanding processes.

HTLine	Faster and sustained power Increased flexibility Prolonged performance
FilmLine	Flexible film backing Micro finishing grain Consistent scratch pattern
PlusLine	Flexible paper backing Excellent clog resistance Longer working life
RedLine	High performance abrasive grain Latex paper backing Lubricant coating minimises loading
WhiteLine	High performance abrasive grain Latex paper backing Lubricant coating minimises loading
HeavyLine	Heavy duty paper backing Aluminium oxide mineral grain Durable cutting performance
MeshLine	Open mesh structure Robust backing Electrostatic coating

PRODUCT TYPE

ABRASIVE PLAN

[illegible]

Note: All technical data sheets and safety data are available for consultation in www.INDASA-abrasives.com

THE COMPONENTS

RHYNO® ABRASIVE SYSTEMS
RHYNO® products offer the optimum performance and durability for all refinishing operations. Developed specifically to meet the exact standards of the professionals and to keep pace with advanced refinishing techniques, they perform quicker and last longer while producing the ideal surface for the next stage of the work process.

- ABRASIVES**
High performance mineral grains:
 - Aluminum oxide
 - Silicon carbide
 - Zirconium
- BONDING**
Advanced modified synthetic resins.
- DRY SANDING SPECIAL COATING**
As a 3rd coating, a clog resistant lubricant technology is used in specific products for dry sanding operations.

- BACKINGS**
 - PAPER**
The most used are the following premium backing papers:
A B C D E G H
flexibility Resistance
 - CLOTH**
F¹ X¹ Y²
flexibility Resistance
 - VULCANIZED FIBRE**
Is used in abrasive discs for very heavy duty applications.
 - POLYESTER FILM**
Used for finishing operations performed with microfine grits.

FASTENING SYSTEMS

THE TAB SYSTEM
INDASA has developed a simple but efficient system – the “Tab” – that allows the quick removal of the release paper from the Rhynostick discs.

THE GRIP SYSTEM
The brushed nylon “Grip” system enables the removal of the Rhynogrip discs from the machine's backing pad for reuse.

INDASA abrasives systems are at the forefront of coated abrasive technology. The investments in the development of our products are always in response to the needs of our customers and in trend with the latest surface treatment techniques, resulting in the unquestionable recognition of our brand worldwide. INDASA's offering includes a complete range of accessories for the autobody professionals.

GRIT STANDARDS

INDASA coated abrasives are manufactured using the highest quality raw materials and in compliance with FEPA grit standards.

SAFETY RECOMMENDATIONS

Ensure that the working area is clean and tidy.

Wear protective ear and eye equipment.

Wear suitable respiratory equipment when working with hazardous materials.

Wear protective gloves.

Follow the correct procedures for handling and storage.

Make sure that the abrasive selected is suitable for its intended use.

Avoid clogging to ensure the abrasive works efficiently.

Let the abrasive stop naturally, not by applying pressure to its surface.

As the majority of coated abrasive backings are hygroscopic, they cause different superficial tensions with the resin layer.

This phenomenon might cause positive (convex) or negative (concave) flexing.

In order to maintain the abrasives in their natural form (straight), it is recommended that they be stored at a temperature between 64-70 F and a relative humidity of 55-60%.

HT Line

CUTTING EDGE ABRASIVES

FOR EXCELLENT PERFORMANCE

☆ PREMIUM FEATURE

ULTRAVENT
ADVANCED DUST FREE SOLUTION

PREMIUM FEATURE UPGRADE YOUR EFFICIENCY WITH OUR SANDING TECHNOLOGY

Our High-Tech performance line was innovatively designed to meet the most demanding users.

Its new manufacturing process comprises both a special abrasive grain and a special lubricant layer, tailored to improve the effectiveness of each sanding process

INDASA - INDÚSTRIA DE ABRASIVOS, S.A..

**PERFECT FINISH,
WE KNOW HOW.**

RHYNOGRIP FILM LINE ULTRAVENT

Advanced dust extraction → Cleaner working environment

Increased efficiency → Maximises productivity

Flexible film backing → Crease and tear resistant

Uniformity of scratch pattern → Optimum substrate preparation

High strength resin bond → Minimal grit shedding

Advanced technology clog resistant coating → Extended working performance

RHYNOGRIP MESH LINE

NEW

Open mesh structure → Excellent dust extraction for a cleaner working environment
Innovative grain technology → Quicker, stronger and prolonged cut
Robust backing → Durable, crease and tear resistant
Anti-clogging → Extends working life
Electrostatic coating → Optimal grain positioning
Concise range → Perfect for automotive, building, decorative, furniture and marine
Velour backing → Compatible with all grip backing pads

RHYNOGRIP MESH LINE

Open mesh structure → Excellent dust extraction for a cleaner working environment

Innovative grain technology → Quicker, stronger and prolonged cut

Robust backing → Durable, crease and tear resistant

Anti-clogging → Extends working life

Electrostatic coating → Optimal grain positioning

Concise range → Perfect for automotive, building, decorative, furniture and marine

Velour backing → Compatible with all grip backing pads

RHYNOGRIP HEAVY LINE

Highly resistant backing → Crease and tear resistant
High initial cutting action → Rapid stock removal
High strength resin bond → Minimal grit shedding
Nylon grip backing system → Quick and easy to fit
Protective release paper → Maximum adhesion to backing pad

80 x 80 x 80mm

SPONGES

SPONGES & WEB

RHYNOSOFT PRE-CUT

Sponge Sanding → Adapts to contours for precision sanding and finishing

High density sponge → Improves the user sanding experience

Single pad → Perfect for hand sanding

Cut innovation → Eliminates sanding marks

Pre-cut roll → Provides easy handling and roll efficiency

Two pads → Machine sand size - 115 x280mm sander

Grit print on sponge → For better identification

Innovative perforation → High tensile strength

SPOT REPAIR KIT

Combines all essential components → Smart process adapted to small repairs

75mm

CODE	QTY P/ BOX
433706	1

KIT CONTENTS

- 1 Orbital palm sander 75mm
- 1 Rhynogrip backing pad 75mm 3H
- 1 Rhynogrip interface pad 75mm 3H
- 100 Rhynostick MFS P2000
- 100 Rhynostick MFS P2500
- 1 Rhynostick MFS handblock
- 250 Rhynogrip Plus Line
75mm 3H discs
- 200 Rhynogrip Film Line
75mm 3H discs
- 10 Rhynofinish MF 75mm discs

ANCILLARIES

INNOVATIVE PRODUCTS FOR SMARTER WORKING

ANCILLARIES

RHYNOGRIP BACKING PAD ULTRAVENT LOW PROFILE

Ultravent technology → Unique and highly advanced dust free sanding solution
Durable composite body → Hard wearing
Fully compatible with Rhynogrip abrasive systems → Maximised performance
Heat bonded stud assembly → Excellent durability
Well balanced → Optimised sanding performance
Low profile structure → Ergonomic and efficient sanding

150mm

LOW TACK CLOTH

Low tack adhesive → No streaking or residue transfer

Non woven lint free cloth → Excellent dust absorption

Resealable foil bag → Prolongs cloth effectiveness

400 x 400mm		
CODE	QTY P/ BOX	QTY P/ CASE
436784	15	300

ERASER WHEELS

Solid vinyl rubber → Rapid removal

Thread adapter → Tool versatility

90mm	
CODE	QTY P/ BOX
234327	1

LOCKING DISCS HOLDER

Quick fix locking system → Instant disc change over

Heat sealed → High durability

Well balanced → Optimal functionality

50 / 75mm		
CODE	SIZE	QTY P/ BOX
515451	50mm	10
515475	75mm	10

DRY GUIDE COAT

Maximises coverage on filler/primer → Effective detection of surface imperfections
Black powder coating → No masking, no overspray, no drying time
Supplied with hand applicator → Quick and easy to apply

100g	
CODE	QTY P/ BOX
528983	6

RHYNO® MIXING BOARD

Clean mixing surface → Contamination free mixing
Rigid backing board → Easy to mix filler
Non porous paper sheet → Single sheet usage
Easy tear → No wastage

215 x 250 mm	
CODE	QTY P/ BOX
608180	10

PLASTIC CASE

Lightweight → Ideal for carrying your everyday essentials
Quick release locking → Stackable tool box

464 x 335 x 212mm	
CODE	QTY P/ BOX
586938	2

WORKSTATION PRO

Mobile with lockable wheels → Ease of transport throughout the work place
High storage capacity → Designed for the bodyshop

WORKSTATION PRO			
CODE	DIMENSION (LxWxH)	WEIGHT	QTY P/ BOX
593110	1043 x 643 x 1336mm	54kg	1

- WHAT'S INCLUDED
- 1 Lockable drawer
 - 4 Lockable wheels
 - 4 Metal hooks
 - 1 Removable shelf
 - 1 Waste bin with retractable support
 - 1 Hose reel holder
 - 1 Hook for electric cable
 - 4 Slots for sanding machines or blocks
 - 1 Container for bottles
 - 1 Robust handle bar

SEALANTS, ADHESIVES & COATINGS

FOR THE BODY REPAIR PROCESS

INDASA MIXING SYSTEM

No liner → No colour distortion or pigment concentration

Integrated filter → Fast and secure assembly

Flat lids → Stackable storage

2 part system → Simple handling

Smart Valve → Optimised paint flow

Two available filters → Blue for 125 microns and Clear for 190 microns

High Grade Polypropylene plastic → Robust and flexible cup

Single use mixing system → Clean parts every job

Clear cup graduation → Calibrated and reliable mixing ratios

Silicone-free → Confidence in the application

**PERFECT FINISH,
WE KNOW HOW.**

TEX-POL

Excellent adhesion → Durable coverage
Multi substrate → Universal application
Deep filling properties → Ideal for large repairs
Quick drying → Reduced repair time
Pinhole free application → Optimum surface preparation
Synthetic rubber based coating → Excellent protection against stonechips
Textured or smooth finish from gun → Matches original stonechip finish
Can be painted when cured → Replicates OEM finish
Rust inhibitor → Corrosion resistant

SOUND DEADENING PADS

Can be painted → Replicates OEM finish
Extremely flexible → Easy to apply and cut to shape
Class 1 FMVSS 302 → Self extinguishing

500 x 500mm

CODE	QTY P/ BOX
142448	10

BRUSHABLE SEAM SEALANT

Quick drying → Reduced repair time
Can be painted when cured → Replicates OEM finish
Multi purpose application → Ideal for welded or bolted seams
Sag resistant → Brushes out to match OEM finish
Resistant to UV, water, oil → Durable protection

1kg

CODE	QTY P/ BOX
541647	12

PU SEALANT

Silicone free → Compliant use for bodyshop
Can be painted when cured → Replicates OEM finish
Resistant to UV, water, oil → Durable protection
High strength sealant adhesive → Excellent bonding properties
Excellent sag resistance → Retains a permanent flexible seal

310ml

CODE	COLOR	QTY P/ BOX
482773	Black	12
482780	Grey	12

POLISHING

YOU CAN SEE IT IN THE FINISH

AUTOGLOSS COMPOUND PLUS

Single stage process → Superior system efficiency to achieve gloss finish
Fast cutting abrasive power → Permanent removal of P1500 scratch marks
Dry use → Cleaner and quicker process. No dusting or splatter
Reduces heat build-up → Less swirls and holograms
VOC Free → Environmentally and user friendly and compliant
High Gloss Level → Great for all colours, especially dark ones
Multi-Substrate → For all paint surfaces, old, new and fresh
Silicone free formulation → Safe for the bodyshop

1kg / 250g		
CODE	CAPACITY	QTY P/ BOX
579060	1kg	6
579046	250g	12

AUTOGLOSS HIGH-GLOSS PLUS

Single stage process → Superior system efficiency to achieve gloss finish
Fast cutting abrasive power → Permanent removal of P1500 scratch marks
Dry use → Cleaner and quicker process. No dusting or splatter
Reduces heat build-up → Less swirls and holograms
VOC Free → Environmentally and user friendly and compliant
High Gloss Level → Great for all colours, especially dark ones

- 20 Rhynofinish Microfine discs
- 2 Interface backing pads

TECHNICAL TAPES

ADHESIVE FIXING & MASKING SOLUTIONS

MASKING TAPE MTE-YELLOW

Excellent adhesion → Good mechanical strength
Flexible → Easy to shape on contours
Solvent resistant → Paint will not bleed
Consistency of thickness → Uniform paint edge
Easy roll release → Easy to apply
Waterproof backing → Indoor and outdoor use
110°C temp rating → High bake refinishing
UV resistant → Easy clean removal without adhesive transfer

MTE-YELLOW		
CODE	DIMENSION	QTY P/ BOX
556740	18mm x 50m	48
565957	24mm x 50m	36
556771	36mm x 50m	24
563199	48mm x 50m	20

MASKING TAPE-MTE

Excellent adhesion → Good mechanical strength
Flexible → Easy to shape on contours
Easy/clean removal → Leaves no residue
Solvent resistant → Paint will not bleed
Consistency of thickness → Uniform paint edge
Easy roll release → Easy to apply
80°C temp rating → Low bake refinishing

MTE		
CODE	DIMENSION	QTY P/ BOX

562796	9mm x 55m	20
562802	12mm x 55m	20

DOUBLE SIDED ACRYLIC TAPE

Moisture and UV resistant → Allows outdoor use
Adhesion to different substrates → Application versatility
Hi-tech tape → Long lasting bonding
Excellent adhesion → Long lasting bonding
Reproduce the factory finish → Superior quality finishing

ACRYLIC FIXING TAPE

CODE	DIMENSION	QTY P/ BOX
562819	6mm x 10m	10
562826	9mm x 10m	10
562833	12mm x 10m	10
562840	19mm x 10m	10
562857	25mm x 10m	10

TRIM MASKING TAPE

Easy/clean removal → Leaves no residue
Extremely flexible → Easy to mold contours
Masking tape with plastic strip → Easy to mask and protect windscreen rubber/trim
Precut tape → Easy application

TRIM MASKING TAPE		
CODE	DIMENSION	QTY P/ BOX
562864	45mm x 10m	36

FAST FIX TAPE

Adhesion to different substrates → Application versatility
Excellent adhesion → Long lasting bonding
Extremely versatile and easy to apply → Multiple applications
Multifunctional double sided tape → Versatility in use
Transparent tape → All Applications

FAST FIX TAPE		
CODE	DIMENSION	QTY P/ BOX
562871	12mm x 10m	20
562888	19mm x 10m	20

EMBLEM TAPE

Adhesion to different substrates → Application versatility
 Excellent adhesion → Long lasting bonding
 Easy application → Reposition possibility
 Reproduce the factory finish → Superior quality finishing

BADGE AND EMBLEM ADHESIVE

CODE	QTY P/ BOX	QTY P/ CASE
566406	5	250

PROTECTION FILM TRANSPARENT / BLACK

Excellent adhesion → Long lasting bonding
 Easy application → Reposition possibility
 High strength adhesive film → Protects the paint from the gravel, scratches and corrosion
 Reproduce the factory finish → Superior quality finishing

PAINT PROTECTION TAPE

CODE	DIMENSION	COLOUR	QTY P/ BOX
562901	150mm x 2m	Transparent	12
562918	150mm x 5m	Black	12

SAFETY GRID TAPE

Provides anti-slip tread on stairs and treads

Hard wearing mineral coating → Excellent adhesion to most surfaces

Low profile → Flush fitting

Suitable for indoor & outdoor application → Available in black and black/yellow

ANTI-SLIP TAPE		
CODE	COLOUR	QTY P/ CASE
562925	Black	12
562932	Black/Yellow	12

NOTES

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

RESOURCE

INDASA understands that the customer has unique and diverse market needs. We work in conjunction with our business partners to deliver our know-how and market specific solutions that maximise customer value.

COMMERCIAL SUPPORT

- Comprehensive product profile
- Business analysis and development
- Outstanding value and opportunity

TECHNICAL SUPPORT

- INDASA Academy or on-site
- Development of workforce skills
- Best working practice – bespoke process

MARKETING SUPPORT

- Promotional merchandise
- Digital media platforms
- Global brand promotion
